

Wednesday 21st October

Dear parents / stags,

Adopt an Ethiopian wolf!

These soft beautiful animals are threatened carnivours; only 500 remain.

Threats to this ecosystem have devastating consequences on the family groups who live there. Frequent outbreaks of rabies and distemper. As a result numbers have fallen by about 20% over the last 8 years. If you save it, it will change the animals life so much. You need to Adopt an Ethiopian wolf because they're getting threatened from poachers; only 500 left in the world.

Just £3 per month!

Adoption pack include Free cuddly toy. Adopt! Magazine.

If you adopt this animal it will be safe and happy.

Be warned they are quite noisy!

There is not enough Ethiopian wolfs in the world; it is important to adopt one. Ethiopian wolfs are horriised.

They live in real extreme lives that are not nice.

😊 I like how you repeat 'only 500 left.' It makes me really consider their vulnerability.
